1.0 ONE ID Delegation

Your ONE ID account is your gateway to all your eHealth enrolments. Before you can use your ONE ID account to assign delegates, you must complete your registration. To do this, you need the ONE ID Login ID provided by your Local Registration Authority, and a temporary password.

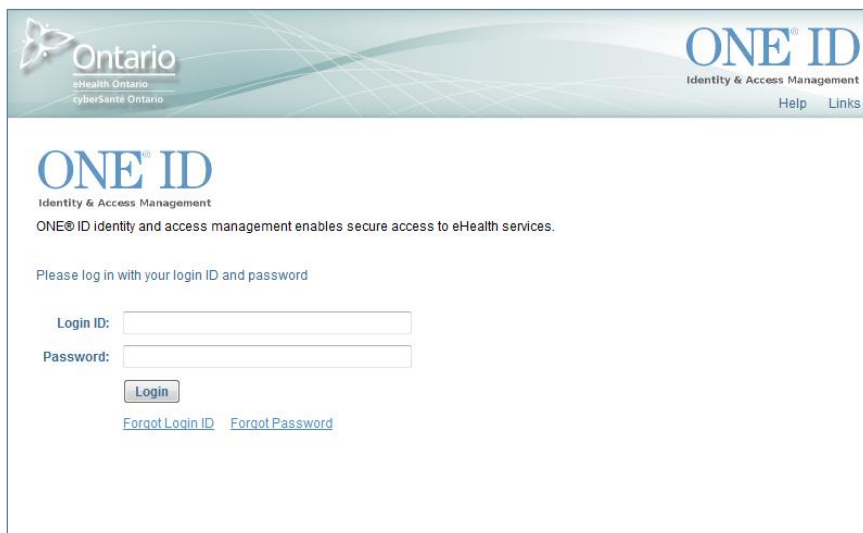

ONE ID Delegation is the means by which users can grant others the ability to access select services on their behalf. All users must continue to access services using their own credentials, but delegates will, after log in, need to indicate whether they are acting on their own behalf, or that of a delegation authority.

Delegation Authority: This is a user that is enrolled in a Service and meets the criteria to be a delegator for that Service. The rules to determine a Delegation Authority will vary from service to service (see [Appendix A – Delegation Authority Criteria](#)). A user can be a Delegation Authority for multiple Services that they are enrolled in.

Delegate: Any user already enrolled in a Service can be a delegate for that Service. Delegates receive all the access privileges of their delegation authorities within the service. A Delegation Authority can also be a delegate for another Delegation Authority.

Note: Only a Delegation Authority may authorize a Delegate to access a service on their behalf. For this reason, Delegation Authorities are required to manage their own delegates using the ONE ID system.

To access ONE ID Delegation, users must log into their ONE ID account using their login ID (firstname.lastname@oneid.on.ca) at <https://oneid.ehealthontario.ca>
